

From the centre of Giorgioupoli cross the bridge on the road towards the Kalamitsies [Amigdalou and Alexandrou] and Vamos. Between 500m and 600m from the monument in Giorgioupoli is a turn on the right with signs to various eateries. [Last time I was there the signs were for Tavernas "Arkadi", "Kalithaki" & "Filos", a Creperie/Pizzeria "Enjoyment" and apartments whose name I forget - which is a shame 'cos that's where the models are.]

Turn right and after about 100m there's a T-junction where you turn left [opposite the creperie], continuing to follow signs for the apartments and Kalithaki taverna. After another 90m or so continue through the gateway into the apartment grounds and carry on to the end of the road. Once there you'll see the models.

You can also access the beach from there and, in summer, the taverna's open, too.

The apartments are, of course, private property but we've always found the owners very welcoming, at any time of year, to anyone wanting to view the models.
